NOTE FOR: DDCI

DCI

SUBJECT: Attached memo on Status of

Possible Aircraft Delivery

to Nicaragua

I have alerted the briefers to keep Clark informed about ships. We probably will have a piece in the pubs tonite.

This memo was done to keep you informed.

25**X**1

Richard J. Kerr Acting DDI

MEMORANDUM SUBJECT: Status of Possible Aircraft Delivery to Nicaragua 1. For the past month we have been watching two Soviet merchant ships carrying MIG aircraft that we are concerned might be destined for Nicaragua. 2. Soviet merchant ship "Mezhgore" left the Black Sea 27 June with two MIG-17 and three MIG-21 crates identified on deck. It arrived in Mariel, Cuba on 12 July, discharged its cargo, and has subsequently departed for the return voyage to the Soviet Union. 25X1 25X1 3. Past deliveries of Soviet aircraft to Cuba have been shipped by rail to San Antonio de los Banos Airfield for assembly or further transshipment. No MIG-17 or MIG-21 crates have been seen there since the arrival of the Mezhgore on 12 July. 25X1 25X1 25X1	*	,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	Release 2007 g	CRETO TO THE			25X1

4. A second Soviet merchant ship, "Metalurg Baikov", was identified loading MIG-17 aircraft crates at the Soviet Black Sea port of Nikolayev on 7 July. It passed through the Bosporus with at least seven MIG-17 crates on deck, along with numerous trucks, electronic vans, and trailers. This ship went to Latikia, Syria, on 9 July and remained in port for one week. It then sailed to Mers El Kebir, Algeria, arriving between 20-22 July. Mers El Kebir has been used at least twice in the past two years to ship Soviet military equipment to Nicaragua using Algerian ships. No 25X1 aircraft crates are visible, either on the ship or on the quay and tranloading areas of the port. Although there is no hard evidence that a delivery is imminent, or even that MIG-17s have been brought as far as Cuba and Algeria, we believe there is a possibility that Nicaragua will receive a shipment of Soviet MIGs in the next several MIG-17s are the most likely, because they are roughly equivalent to the Super Mystere aircraft of the Honduran Air Force and would be easier for the Sandinistas to learn to fly than supersonic MIG-21s. Assembly of aircraft in Cuba for a flyin, or delivery by a third country vessel are the most likely report that Nicaragua has already received a shipment of MIGs from a Libyan freighter is probably not trueX1 means. as Libva has no ocean going merchant ships and 25X1 ho evidence of the reported 25X1 delivery. 25X1 7. We are continuing to monitor closely all Soviet merchant ships that transit the Bosporus, and overfly any carrying aircraft crates that crosses the Atlantic.
